Parking:

You can park central in the public subterranean garage (P1 Altstadt). This is directly under the building of Soloplan. Further parking possibilities are drawn in the map: Burghalde and Illerdamm. By stays of several days please use the parking place of the hotels.

Limited parking possibilities you will find beside the own subterranean car park of Soloplan. In the departure before the barrier into the public subterranean garage (P1 Altstadt) is an intercom system. Thereupon the subterranean parking gate on the right will be opened. Visitor parking places are accordingly marked.
